## Thread Repair Kits- Helical Inserts

### Thread Repair Kits

Recoil's range of thread repair kits and products and wire thread inserts enable you to produce strong new threads in weaker materials and carry out fast and efficient repair of damaged threads.

#### Creating strong new threads

Wire thread inserts, also known as helicals, and advanced thread installation tooling systems are designed for OEMs to create strong threads in their production. The Recoil thread inserts (helicals) and tooling systems further quicken the installation process and make it easier to manage.

#### Repairing damaged threads

Recoil prides themselves for their range of thread repair kits.

### Thread Repair Kits by Recoil

Containing everything you need to complete thread repair projects, Recoil's innovative and cost effective thread repair kits are utilised worldwide in industrial, automotive & aerospace maintenance solutions.

#### Benefits:
