

**Only Warm Morning Gives You
Exclusive Patented 4-Flue
Firebrick Construction**

This outstanding feature gives you long hours of heating comfort — on just a single filling of coal. Load the heater — and in minutes coal is turned into glowing coke — providing longer-lasting, steady heat.

**You light a WARM MORNING Fire
Just Once a Year.**

You start a fire just once — at the beginning of the heating season. You stay comfortable — without hours of “fire-tending” every day. You save coal — enjoy lower heating costs — because a WARM MORNING coal heater is more efficient.

lower fuel cost

Famous Patented *Warm Morning* Coal Heaters

DELUXE CIRCULATORS

Model 460

WARM MORNING'S lower-priced circulator that will effectively heat up to 5 rooms. Beautifully styled in the same color porcelain enamel finish as the model 400. Front and side vents give improved radiation and heat circulation. Large front feed door makes filling easier and cleaner.

Coal Capacity: 60 lbs.

Height 38" Width: 22 1/2" Depth 22"

Shipping Weight: 293 lbs.

The model F-8 electric fan is an optional feature available for the Model 400 and 460 heaters. It is a two-speed, manually operated fan that spreads a carpet of comfort over the floors.

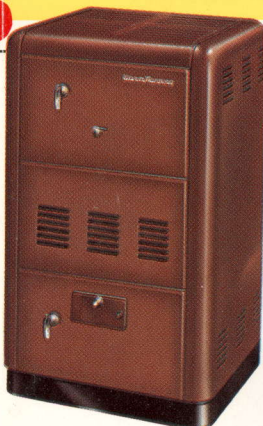

Model 400

America's finest coal heater! Cabinet is finished in life-time porcelain enamel, with chrome louvers for improved appearance and performance. Built-in AUTOMATIC THERMOSTAT controls burning rate. Cabinet side doors may be opened for quick radiant heat release. Large front feed door. Heats up to 6 rooms.

Coal Capacity: 100 lbs.

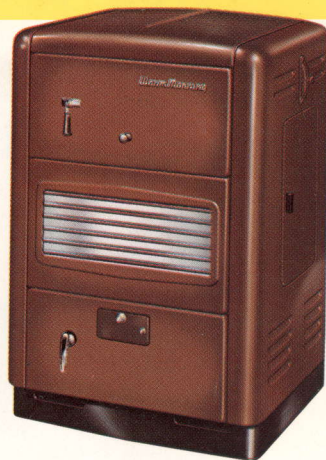

Height: 42 1/2" Width 29" Depth 25"

Shipping Weight: 378 lbs.
