10-Year Combustor Extended Warranty - Conditions and Exclusions

1. The original warranty on the combustor, as stated in the owner's manual, is still in effect.
2. The 10 Year Extended Warranty covers only the original combustor for 10 years against defects in manufacturing or materials.
3. The 10 Year Extended Warranty covers the combustor only and is not applicable to any other part of the stove.
4. The 10 Year Extended Warranty does not cover any labor costs associated with combustor replacement.
5. The 10 Year Extended Warranty is only available to the original owner and is not transferrable.
6. The stove owner is responsible for shipping & handling fees of any replacement combustor under the 10 Year Extended Warranty.
7. The 10 Year Extended Warranty only applies to Blaze King catalytic wood stoves and wood fireplace inserts.
8. File this portion of your 10 Year Extended Warranty Certificate. You will need it to make any claim under the 10 Year Extended Warranty.
9. Please completely fill out the lower half of this 10 Year Extended Warranty certificate and return by mail to the address indicated.
10. If you need a replacement combustor you must contact the Blaze King dealer where you purchased your stove. You will purchase & be charged for the replacement combustor. Your original combustor must then be returned to your dealer who must then send it to Blaze King where it will be inspected. Attach the upper half of this certificate with the used combustor. Please follow the normal procedures for returning a combustor as set forth in your owner's manual. We will assess the condition of the combustor and if we determine that it is covered under the 10 Year Extended Warranty, we will instruct your dealer to issue you a replacement combustor. If we determine the returned combustor is still functioning or was damaged by causes unrelated to manufacturing or use, the used combustor will be returned to you and no refund will be issued.
