XL

(SPRINGHANDLES, DRAFT KNOBS AND ADJUSTABLE BALLS.)

Fisher, the number one name in wood and coal burning stoves, now brings you the most beautiful way to conserve energy than ever before; it's the new brass XL. At the top of the line the new brass XL leads the stove industry not only in unmatched technology and simplicity of design in stove making but gives you the very most in beauty and elegance. The brass XL stands alone in offering you not only a functional product that can save you untold amounts of money in fuel and electrical costs but is a product that you'll be more than pleased to have any where in your home. Wherever you place your new brass XL it will compliment you and your home, as well as adding it to the warmth and comfort needed for you and your family.

The New Brass XL along with all it's other excellent features and heating benefits of up to 3,000 sq. ft. offers you still the convenience of two cooking surfaces, and the utilization of a reflector oven for baking making your new XL an extremely cost efficient buy.
